

NVQ in Health and Social Care and the CIH (NVQ equivalent) Award in Housing

These OCR and CIH accredited courses are set up to provide training for candidates at various award levels. These include the CIH Award at level 2 and the NVQ awards at levels 2, 3 and 4 (including the LMCS Award). Also available are Assessors Award (A1) and the Internal Verifier's Award (IV).

Our NVQ training courses are set at the highest standard with each candidate trained in all the relevant modular courses. We provide portfolio support to all our candidates throughout the duration of the course. Each of our registered candidates is assigned to an individual Assessor from our professional team of qualified Assessors.

The NVQ courses are divided into units as set out by the awarding bodies and our team of qualified Assessors support each candidate in their evidence gathering process.

At the end of each course, in order for candidates to gain the professional accredited certificates, individuals are expected to prove their competency in each unit; performing criteria against standards set out by each awarding body.

Funding for this course is available to candidates based on successful qualification after a pre-assessment. Kindly contact Aarologix Learning and Development Centre for further details.

. (we also offer the Training the Trainer course for candidates wishing to become trainers).
